

Tatheer Aima Naqvi

CS student Nust Islamabad

PROFESSIONAL SUMMARY

First-year Computer Science student with a strong background in physics, mathematics, and scientific problem-solving, seeking opportunities in research labs, robotics, and technical environments. Experienced through academic projects in nuclear science, simulations, and experimental analysis, with an interest in applying programming and computational methods to real-world challenges. Motivated to contribute, learn quickly, and grow within interdisciplinary teams working in science, engineering, and emerging technologies.

Work Experience

Bronze Medalist , International Nuclear Science Olympiad, Malaysia

International Atomic Energy Commission

May 2025 – Aug 2025

Demonstrated advanced expertise in nuclear science through problem-solving and experimental analysis, earning a bronze medal at an international level with particular proficiency in radiation physics, nuclear reactors, and safety protocols. Completed 200+ hours of hands-on training in nuclear labs at PIEAS and trained by top Nuclear Scientists of Pakistan and worked in research reactor PARR.

Beamline CERN

CERN

Mar 2025 – May 2025

Proposed and optimized 2 high-precision particle beamline experiments for CERN, enhancing experimental accuracy and contributing to groundbreaking physics research outcomes after simulating it with Monte-Carlo simulation. Part of a team of 6 people where we proposed two experiments on neutron spallation and radio-technologies.

National Physics Talent Contest

HEC Islamabad

Sep 2023 – Mar 2024

Achieved 7th rank out of 7000 students nation-wide in Physics Talent Contest and was selected and honored to be part of reserved team of Pakistan, representing Pakistan its International Physics Olympiad after attending three physical camps in PIEAS.

SKILLS

- **Full-stack development (Java)** Intermediate
- **C++ programming with SFML and raylib library** - Intermediate
- **Experimental design** Intermediate
- **Scientific programming Monte Carlo simulation** Intermediate
- **Mathematical modeling & research methodology** Advanced
- **Statistical analysis and particle physics** Advanced
- **Public Speaking (3x national winner)** Expert

EDUCATION

BS CS NUST UNIVERSITY ISLAMABAD

Sep 2025 till present

- Second Semester Student Nust
- Executive research , NPAS society NUST
- Executive Marketing ,Google Developer Club

Fsc - Chenab College Jhang

Aug 2023 - Aug 2025

- FSC - 1118/1200
- Matric 1080 / 1100
- Head Girl - led student body
- President Science Society
- President Debating Society

PROJECTS

- **Bank Management System**
OOP-based bank management application with graphical interface built using the SFML library in C++.
<https://github.com/aima0749/Banking-management-System->
- **Finance Tracker**
Console-based personal finance tracker built with Java, applying object-oriented programming principles
<https://github.com/hashimkyn/Finance-Tracker>
- **Physics Sand-box**
Interactive 2D physics simulation for visualizing and learning collision mechanics using C++ and raylib library.
<https://github.com/aima0749/PHYSICSENGINE>
- **Zenvy (passion project)**
Full developed application to connect users with local service providers, built with React JS and Supabase backend.
<https://github.com/aima0749/Zenvy>

LANGUAGES

- **Urdu** - Native
 - **Punjabi** - Native
 - **Hindko** - Native
 - **English** - Fluent
 - **Arabic** - Intermediate
 - **Hindi** - Conversational
